

Forklift 1 Instrucción de la Seguridad

Los CONDUCTORES de la CERTIFICACION
del OPERARIO de la CARRETILLA ELEVADORA
OSHA PRUEBAN de acuerdo con los Requisitos de OSHA en 29 CFR (N) 1910,178
Para el Grupo de la Industria de OSHA: la Industria General

Drivers Test with Safety Checklist

SAMPLE GENERIC CHECKLIST FOR POWERED INDUSTRIAL TRUCKS

- Overhead Guard - Are there broken welds, missing bolts, or damaged areas?
- Hydraulic Cylinders - Is there leakage or damage on the lift, tilt, and attachment functions of the cylinders?
- Mast Assembly - Are there broken welds, cracked or bent areas, and worn or missing stops?
- Lift Chains and rollers
 - Is there wear or damage or kinks, signs of rust, or any sign that lubrication is required?
 - Is there squeaking?
- Forks
 - Are they cracked or bent , worn, or mismatched?
 - Is there excessive oil or water on the forks?
- Tires - What do the tires look like?
 - Are there large cuts that go around the circumference of the tire?
 - Are there large pieces of rubber missing or separated from the rim?
 - Are there missing lugs?
 - Is there bond separation that may cause slippage?
- Battery Check
 - Are the cell caps and terminal covers in place?
 - Are the cables missing insulation?
- Hydraulic Fluid - Check level?
- Gauges - Are they all properly working?
- Steering
 - Is there excessive free play?
 - If power steering, is the pump working?
- Brakes
 - If pedal goes all the way to the floor when you apply the service brake, that is the first indicator that the brakes are bad. Brakes should work in reverse, also.
 - Does the parking brake work? The truck should not be capable of movement when the parking brake is engaged.
- Lights - If equipped with lights, are they working properly?
- Horn - Does the horn work?
- Safety seat - if the truck is equipped with a safety seat is it working?
- Load Handling Attachments
 - Is there hesitation when hoisting or lowering the forks, when using the forward or backward tilt, or the lateral travel on the side shift?
 - Is there excessive oil on the cylinders?
- Propane Tank - Is the tank guard bracket properly positioned and locked down?
- Propane Hose
 - Is it damaged? It should not be frayed, pinched, kinked, or bound in any way.
 - Is the connector threaded on squarely and tightly?
- Propane Odor - If you detect the presence of propane gas odor, turn off the tank valve and report the problem.

- Engine Oil - Check levels.
- Engine Coolant - Visually check the level. Note: Never remove the radiator cap to check the coolant level when the engine is running or while the engine is hot. Stand to the side and turn your face away. Always use a glove or rag to protect your hand.
- Transmission Fluid - Check levels?
- Windshield Wipers - Do they work properly?
- Seat Belts - Do they work?
- Safety Door - (found on stand up rider models) Is it in place?
- Safety Switch - (found on stand up riding tow tractors) Is it working?
- Hand guards - (found on stand up riding tow tractors, walking pallet trucks, walking transtackers) Are they in place?
- Tow Hook
 - Does it engage and release smoothly?
 - Does the safety catch work properly?
- Control Lever - Does the lever operate properly?
- Safety Interlock - (found on order pickers) If the gate is open, does the vehicle run?
- Gripper Jaws - (found on order pickers) Do the jaws open and close quickly and smoothly?
- Work Platform - (found on order pickers) Does the platform raise and lower smoothly?

Las instrucciones: carretilla elevadora de enfoque de Operario y avanza para tomar camión por un ciclo típico de operaciones. El cheque de evaluador cada función de operario si Operario y Evaluador firman en el fondo.

bueno	no bueno	* Evalúa la Función de Operario de Carretilla Elevadora
		1. Realizó la Lista Diaria de Cheque de Operario
		2. Abroche Cinturón de seguridad
		3. Empezado arriba la ignición de vehículo apropiadamente
		4. Empezado manejando vehículo lisamente
		5. La alineación y la carga acercada apropiadamente
		6. La carga levantada lisamente y seguramente
		7. La carretilla elevadora maniobrada en mínimo necesario
		8. Viajado con la carga en la altura apropiada
		9. Los rincones aflojados y girados seguramente
		10. Aflojado o parado como conveniente en cruce
		11. El cuerno sonado en cruce
		12. La fijación (fijaciones) operada de la carretilla elevadora correctamente
		13. La visibilidad buena mantenida siempre
		14. Hacia atrás manejar satisfactorio
		15. La carretilla elevadora parada y los controles neutralizados
		16. Ponga estacionamiento freno
		17. Girado de llave de ignición
		18. La compañía seguida la política clave (la hoja en la ignición o saca)
		19. Los tenedores bajados al piso
		20. El tenedor inclina tocando el piso
		21. 21. Observación General de examinador

El nombre: Operario (impresión) _____ de Carretilla Elevadora.
